ISD file, nor is it on the scanner. How do I upgrade? A: As it is the only driver for your scanner, you will have to upgrade the firmware first. If you have the original install DVD for your scanner, you can install it by loading firmware.dat. You can also load firmware.dat using an SD card. To do this, you will need to plug the USB cable into the computer. You can then insert the SD card into the USB slot and run the firmware loader. First, plug in the USB cable. Run the Epson update from the Epson Scan software. Open the update manager and select "check for new firmware". The new firmware will be downloaded to the Epson Scan software. Once the firmware has been downloaded, the USB cable can be disconnected. In a similar way, you can also upgrade firmware using the Epson Scan Software. You can download Epson Scan 5.5 from the Epson web site. The 5.5 version will be delivered to you as an installer (which you should run) and the corresponding version of the Epson Scan software will be installed. Just follow the instructions on the Epson site. O Traz This app helps in riding moto in Costa Rica by recognizing different routes in your area, sending these routes to your account, and then providing you different data (neighborhoods, bars and fast-foods). A more complete version is coming soon. Andraguillos – A complete guide for enjoying moto in Costa Rica, from routes to safety, from language to national culture. We are working on a smartphone version of this app. Stay tuned! OPTIMA – You will use your smartphone to navigate while you ride. Andraguillos uses the GPS of your smartphone as well as a unique "route" created by your riding. EcoTraz – This App will give you real time data from the ecology of your riding area. You can learn which neighborhoods are the best to ride, what time of day is the best to do it, and much more. EcoDia – This App will help you to be part of the cleanups that takes place around the country. You can follow activities (cleanups, concerts, walks...) by 82157476af
